We would rather spend more time going deep into a good question rather than rushing from one question to the next. Therefore, we will pick and choose the best questions.

Concerning the manuscript, how can one obtain an extra manuscript if I have multiple books to publish at the same time.

Can I get Grammarly to check my 30k manuscript for plagiarism only? Is there a cost for it?
What is their turn around time? Thank you.

I'm struggling with a title for my book even after following the instructions in module 3. I'm stuck, and I don't know how to move forward. My book is about Anxious Attachment, and it is guided from chapter to chapter. They achieve a goal before moving forward in the book.

Hi Coaches, Customer research has told me that when writing on the topic of Norse Mythology, readers want in-depth study, quality content, an immersive experience, not lots of chapters, little content, and a low page count. In other words, they want a book to be over 150 pages, and cover the content in depth. Should I consider a different topic, or could I increase the page count?

When it comes to plagiarism, I've gone through the entire manuscript, and found LOTS! however 99% of it is in incomplete parts, beginnings, middles, or ends of sentences. Do I still need to cite it all despite it being what would seem to be a coincidental matching of words?

Sandy Goodrich

I have started to process a book in the AI program. Can I still work on that one or start another book?

Chase Burton

I've reviewed the sites suggested for book cover creation. Quite a few to choose from, any suggestions as to which I should go with for the purpose of a first timer, complete package + all formats, revisions, feedback and requests... money is SUPER tight for me, but if you tell me which one is worth paying for, getting the biggest bang for my buck...I'll go with that...

Michael Moffitt

Are the references at the end of my manuscript in chronological order according to where they were sited in each chapter.

Hello Mentors/Coaches, I'm seeking feedback/position on the correct approach to Australian versus USA English spelling. I'm based in Australia, and now that I'm editing the manuscript, I am hit with the dilemma of correctly spelling words such as centre/center or organize/organise or colour/color... these are just a few examples. My question is, which style should we use? I'm unsure which audience I'll target - US or AUS.

Another example is "Practice", a noun, while "practise" is a verb. The difference in spelling depends on whether you are writing in British or American English

Looking forward to your feedback. Cheers Brian

I need suggestions on my writing . i have provided them below , i am writing a book about raising kids entrepreneurs for parents, i am new to writing and publishing and have not read much books. I need which version is good for best book as you are experienced in knowing audience .

1st one is my natural version

1.As every know what's is kids entrepreneurs , I don't want to detail it a lot. In my experience I have seen most of the kids are creative in nature and experiment a lot. If you have notice a 3 year old faced with a problem they naturally tend to find solutions to their problem . For example , when a child wants switch on the light , they first stand and try to touch the light button , once that's failed they put some pillows or any object they can climb to touch the light button , if they fall by that object again try to something stronger and tall enough to touch the light button and finally they switch on the light. You could notice these same gestures exhibited in different situation in young children. Naturally they have these skills of Creativity, Problem solving and Resilience. These are the very core skillset of entrepreneurs or any leader in any field. But as they grow they have faded , since the opportunities for nurturing these skills are not provided to them. But the good news is , we can re-cultivate these skills again in them by following the process provide in this book.

See next slide for 2nd version

Bhuvanewari Arjunan

2nd is refined and humanized version

2. Most children have an innate nature of being creative and wanting to experiment. Watch any three-year-old who has a problem set before them. Observe them as they naturally attempt to figure out a problem. Consider what happens when a toddler wants to turn on the light. They first try reaching up, and it's just a bit too high. So they pile up pillows or climb onto a chair. And when that doesn't work, they look for something sturdier. Until, of course, they do-through trial and error and sheer persistence.

It is this inborn ability to think creatively, solve problems, and show resilience that is the bedrock of an entrepreneurial mindset. But over time, these skills fade-but not because the potential is lost, simply because it hasn't been nurtured. The good news? We can re-ignite and strengthen these abilities with the right approach. This book will take you through a step-by-step process to do just that.

Hi, I'm wondering if I have expertise related to my book topic, and the book mentions my credentials, & maybe a brief mention of a relevant experience, do I need to use my real name as the author, or is it okay to use a pen name? Thanks.

Denise Tysor

I have a problem with the title selection. I have searched everything with "Life, My Life, My Life Journey." Please assist. I have about 70% of the book completed. I am using Grammy Pro. I have an idea for the book cover, but it depends on the title we select.

Can we look at book covers generated by Dalle today?
