## OPEN Q&A

Submit your questions live on the call in the Zoom Q&A field. We will pick the best questions to answer!

There are many students on this call, all at different points in their publishing journey. We receive many questions and do our best to choose the ones that are applicable and helpful to the majority of attendees on this call.

We would rather spend more time going deep into a good question rather than rushing from one question to the next. Therefore, we will pick and choose the best questions.

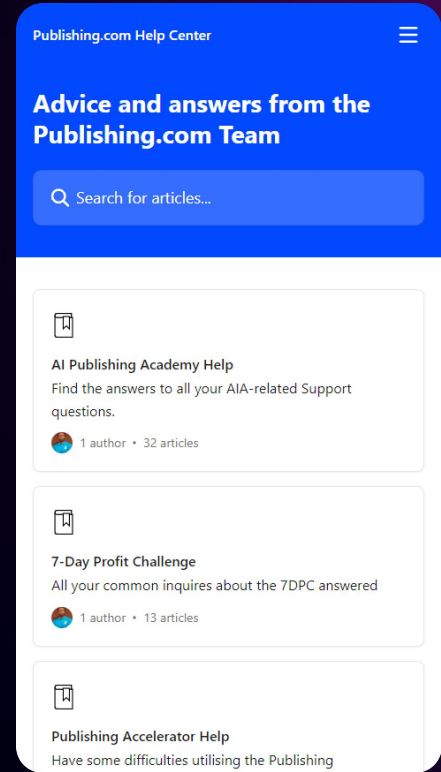

Visit our Help Center at [help.publishing.com](https://help.publishing.com)

- Account related (resetting password, Facebook group, etc.)
- KDSpy, Incognito, Chrome etc.
- 7 Day Publishing Challenge
- Pen names

In the Help Center, you will find clear answers (with videos) to all of these questions, so we will likely skip all questions related to these topics.

# Adding Extensions To Chrome

The screenshot shows the Chrome Web Store page for the KDSPY extension. The page header includes the Chrome Web Store logo, navigation links (Discover, Extensions, Themes, Publishing.com LLC), and a search bar. The extension's name, "KDSPY – Keyword Research for Authors", is prominently displayed, along with its website "www.publishingaltitude.com", a 3.8-star rating from 26 reviews, and categories "Extension", "Workflow and planning", and "70,000 users". A red box highlights the "Add to Chrome" button, and a red arrow points to it from a text box that says "Click on 'Add to Chrome'". Below the extension details is a preview of the KDSPY interface, showing a table of book titles and their sales data. The table has columns for Rank, Title, Avg. Sales Rank, Avg. Monthly Rev., and Avg. Price. The first row shows a book titled "The Book Title" with a rank of 1,200, an average sales rank of 914, an average monthly revenue of \$47,389, and an average price of \$11.08. The table lists 20 books in total. Below the table, there are links for "Ext. Results 21-40", "Keywords", "Export", "Help", and "Log In". The bottom of the page features an "Overview" section with a description of KDSPY as a time-saving book research companion for authors.

I'm just starting out still going thru train, but 1-How do you know (what is a great title), and especially, for beginners. This is my first time, I know I can get great support from you, and once I've conquered once, I know I can do it again. Thank you

# Mike Palm

Should you keep bundling in mind while you are generating books/

# Doug Morrison

What are our recommendations when it comes to an "Author's Page" website once we get to a point we want to publish on other platforms other than just Amazon? Do we have recommendations on content that should be included, or things you definitely do NOT want to do? I'd love to learn from others lessons pro vs con

# Maithy Phung

I cannot optimize my AmazonAds. I would look at Search Terms and see a product that is doing well. I click "Add as Product Target" but there's always an error message, "1 target failed to add. Download error report." This also happens if I see something performing badly and want to add it as "negative targeting" I also get an error message. How can I fix this?

# bhuva

Hi Team , Regarding the workbook , does Publishing.ai generate a complete workbook with all lines and images? Please explain how the workbook will be created in Publishing.ai and share any samples if available.

# Brooke Foster

How is the current market trending for simply illustrated (not AI) children's books? possibly water color or sketches?

# Michael Tremblay

You publishing.ai software produced 41 references, placed in a list at the end of the body of text. Within the text of the manuscript are the characters: “(source 1, source 2, etc.)”. Apparently, these are references to the references list. There are no more than three “source x” references in the manuscript. The documents listed in the manuscript reference list are not numbered. Should I assume the three references are to the first three in the reference list? What should I do with the other ~38 references in the reference list? Should they be numbered, even if not referenced in the text of the manuscript is that ok?

# Ananda Deviika Ma Devii

I am writing the book in 7 days profitable challenge and I am almost halfway through. Christina recommends to charge ebook \$2,99 and paperback \$12,99. I am wondering this is not POC book and it is smaller. My book might be 100 page book. What do you think regarding the pricing. Do we get this book also for review or not. What are the options?

# Cathleen Foster

How to navigate sensitive topics surrounding death and suicide without having to state "trigger warning" of put  $\$%^{\%}\$$  over some letters of the word

# Jane Cardinale

Is there a way to submit my book title and subtitle and have a coach look at it and see if it is good enough to proceed with it?

# Andrea C

Part I: If I publish my hardcover on Amz, does that mean I shouldn't publish it on Ingram? If so, does that mean I miss out on the distribution channels, eg bookshops, that Ingram can access?

Part II: Does enrolling in KDP Expanded Distribution compensate for this missed opportunity?

# Michael Tremblay

How can I output the publishing.ai manuscript file? Is there a "save", or "export", or "upload" capability? If so, where is the function? All I can find is the "copy" and paste capability.

# Ananda Deviika Ma Devii

I joined 7 day profitable challenge and I am writing back that is one third through, longer than the required 500 words. I expect more than 100 pages. Christian recommends to charge ebook \$2,99 and paperback \$12,99. Is this right price for the first book and should I look to get some reviews for the book. I appreciate your opinion.

# Rowan Wells

I can't seem to add my own original research content to the application, for research and consideration. I wrote to support but my question wasn't answered. It seems I can add some comments but not my original research.

# Rowan Wells

I think the application does not always reflect my content considerations. I am not sure if the context generated reflects the content in the Amazon books ASINs provided. Which makes me wonder if the content of those books is superior and vastly different to their book reviews which the application draws on.

# Denise Tysor

Coaches, please review my book cover. This is my 3rd review. I am ready to send my book for formatting and publishing. I created this book before I joined the publishing group, and now I am looking forward to creating another 30K book. I started my research, but I am lost. Any help will be greatly appreciated.
