How To Succeed With Publishing

1. Watch every video in chronological order
2. Take action and complete the to-do list at the end of every week
3. Do as we say

Use the Facebook group and Q&A calls whenever you have ANY questions.

Do this ... and don't stop doing this and success is literally inevitable.

How To Guarantee Failure With Publishing

1. Watch every video in chronological order
2. Take action and complete the to-do list at the end of every week
3. Do as we say

Don't do this.

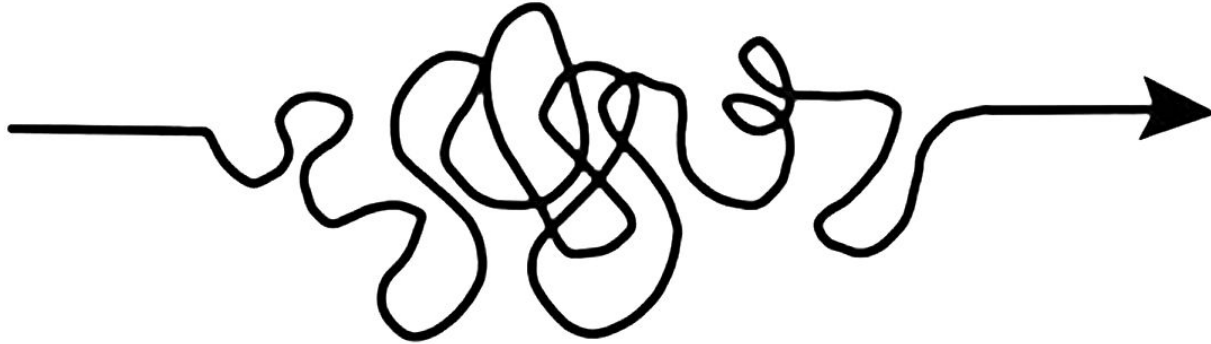

Bonus: Don't overcomplicate it and don't worry about things that don't matter. Publishing is so simple and so easy (relatively speaking) that you can be a complete newbie and still do really well.

The only person stopping you is yourself. No more victim mentality.
